

Small Group Work

1) Was there only one right way to solve the problem(s) today? *

- Yes
- No

2) Did all students work together to solve a problem in your small group today? *

- Yes
- No

3) Did you have trouble understanding other students' thinking in your small group today? *

- Yes
- No

4) Did listening to other students in your small group help make your thinking better? *

- Yes
- No

5) What was the purpose of working in a small group today? *

- Solve a problem using the steps our teacher showed us
- Check with my group members to see if my answers were correct
- Investigate a mathematical idea
- Share the different ways students in my group were solving a problem

6) What was the purpose of your teacher asking questions in your small group today? *

- My teacher did not talk to my group today
- Help us work together as a group
- Remind us of the right steps for solving a problem
- Ask us about a mathematical idea we were coming up with on our own
- Find out the ways we were thinking about a problem

7) Who talked the most in your small group today? *

- Students who knew the right answer
- Students who shared ideas
- Students who asked questions
- The teacher

8) Were you comfortable sharing your thinking in your small group today? *

- Yes
- No

9) Would it have been okay to share thinking you were unsure about in your small group today? *

- Yes
- No

10) Did you feel like other students really thought about your mathematical ideas in your small group today? *

- Yes
- No
- I did not share in the small group today

11) Did you feel like your teacher really thought about your mathematical ideas in your small group today? *

- My teacher did not join my small group today
- Yes
- No
- I did not share in the small group today
